BLACK-DRAUGHT LONSTIPATION

Constipation is nothing more than a clogging of the bowels and nothing less than vital stag-nation or death if not relieved. If every constipated sufferer could realize that he is allowing poisonous filth to remain in his system, he would soon get relief. Constipation invites all kind of contagion. Headaches, biliousness, colds and many other ailments disappear when consti-pated bowels are relieved. Thed-ford's Black-Draught thoroughly cleans out the bowels in an easy and natural manner without the purging of calomel or other violent cathartics.

Be sure that you get the original Thedford's Black-Draught. made by The Chattanooga Medicine Co. Sold by all druggists in 25 cent and \$1.00 packages.

Morgan, Ark., May 25, 1901.
I cannot recommend Thedford's BlackDraught too highly. I keep lt In my house
all the time and have used it for the last
ten years. I never gave my children
any other laxative. I think I could
never be able to work without it
on account of being troubled with
constipation. Your medicine is
all that keeps me up. all that keeps me up.

"I feel so grateful for what Dr. Miles' Restorative Nervine has done for me that I must tell it for that part of humanity that suffers as I have. During the three years I suffered from nervous prostration I found no tellef except when doctors gave morphine. To get rid of suffering I took morphine myself as it was the only thing that would give need and now you who point with score at ease, and now you, who point with scorn at morphine using, how could you, when in such agony, knowing it about the only thing that would give relief, resist it? I knew it was a terrible habit and I knew of its deadly grasp, but I never fully realized its significance until I had used it a number of months. Oh, the misery of being addicted to such a habit. I resolved then and there to quit it and resolved I would never be a slave to any and resolved I would never be a slave to any such demon. About this time I happenel to notice Dr. Miles' Restorative Nervine advernotice Dr. Miles' Restorative Nervine advertised and ordered a bottle. After using five bottles I can truthfully say I am cured of using morphine. Now, however much persons may doubt it, God is my witness I am cured. This testimonial is unsolicited but I feel it my duty to give it for the benefit of the suffering."—MATTIE PHILLIPS, Prescott, Ark.

FLORENCE, S. C., Nov. 26, 1990.—I was first advised by our family physician in Charleston to use TEETHINA with our baby when he was but a very young infant, as a precentive of cole and to warm and sweeten the stomach. Later it was useful in trething troubles, and its effect has been found to be so very beneficial and so free from dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their baby quiet.

GRANT BLY,
Tax Collector City of DeLand, Volusia Co., Fla.

The male human needs more food than the female, not only on account of his larger stature, but also because he is the more katabolic of the two. A writer on this subject in the Lancet (London) says: "The man tends to expend energy and the woman to store it up in the form of fat; he burns the faster. This sexual difference shows itself in the very blood. The man has a larger percentage of chromocytes (red blood corpuscles) than the woman, showing that he needs a proportionately larger quantity of oxygen in order to maintain this more active combustion-a fact which one may associate with his comparative freedom from chlorosis; moreover, weight for weight, his pulmonary capacity is greater than that of the woman, whose smaller respiratory need is further shown by the facility with which she can without discomfort diminish her breathing power by means of the corset."

Music to Cure Insanity. The authorities of the Manhattan Insane asylum. Ward's island, are now making systematic experiments with the music cure and have thus far treated a dozen or more patients afflicted with melancholia, giving them concerts an hour long every afternoon with the harp, violin and piano for instruments. They report after a month's trial that improvement is shown and that patients suffering from acute mania and hallucinations display more mental alertness and cheerfulness and that one patient has been assisted almost to recovery by the strains of the violin

Scarlet Fever Serum.

The scariet fever serum of Dr. Moser of Vienna is obtained from horses which have been injected with a mixture of germ cultures from various scarlet fever cases. Although still imperfect and difficult to obtain, the serum has been under test for two years and has proved to have a specific curative value, giving speedy improvement and preventing death if injected on the first or second day of the disease. The supply has been insufficient for all patients at the testing hospital, yet the mortality in 400 cases was reduced to less than 10 per cent, the average at other hospitals of the town being more than 13

Coffee and Malaria.

Dr. L. Restrepo of Medel In, Colombia. South America, about a year ago announced that he had discovered in the husk of the ordinary coffee bean a drug which was even more powerful in its carative effects on malaria than is quinine. Further experiments seem, at any rate, to partially justify Dr. Restrepo's claims. His method of preparing and administering the drug is as follows: Forty-five grams of coffee beans, including the husk, or thirty grams of the husk alone are crushed and boiled in fourteen duld ounces of water for five minutes. The resulting fluid extract is divided into six doses, which are all taken during one day. Several cases of malaria, given up by other physicians as hopeless, have been cured by Dr. Restrepo.

The Shirt Waist Edict.

The dressmakers have spoken, And sternly they've announced That from the women's fashions The shirt waist must be bounced. An edict they have issued

And sent it far and wide In which that natty garment They scornfully deride. That dainty thing they'd banish,

Its merits they lampoon, Though to the maid and matron It long has been a boon, Though it brought ease and comfort, However warm the day, The dress and gown designers Declare that it can't stay.

They'd drive it from the seashore, The beach and promenade, Where it so long has heightered The beauty there arrayed. They'd chase it from the picnic,

Where pretty maidens flit,

And spoil the summer outing With gowns that tightly fit. The shirt waist they would banish From dwelling, church and street, Thus bringing back discomfort

And souring tempers sweet; And for these grievous changes The explanation's made That there's but little profit

In price for shirt waists paid. But women are rebelling Throughout this mighty land And say that for this edict . They certainly won't stand.

To help them in the fray, And all unite in vowing The shirt waist's here to stay.

Theodore H. Boice in Pittsburg Chronicle-Telegraph.
